

NEW SPANISH CABINET NOW WILL BE FORMED

'GREATEST SINNER' IS SUBJECT OF HAM

Preaching Having Big
Effect On Hearts
Of His Hearers

MANY GIVE THEIR
LIVES TO CHRIST

Scores Answer Appeal
Of Evangelist For
Better Lives

Tabernacle Announcements
5 p. m. Young Ladies Prayer
service at tabernacle.
7:30 p. m. evening service. Ser-
mon subject: "Deceived and Dam-
ned."

SUNDAY SERVICES
3 p. m. Great mass meeting at
the tabernacle for men only.
Dr. Ham's great sermon, lecture
"Heroes and Cowards, men and
Mollycoddles."
7:30 p. m. evening service for
everybody. Sermon subject "The
Final Judgement."

That the preaching of Evangelist
Ham is having its effect upon his
hearers was evidenced last night by
the rapid and earnest attention which
the great audience assembled on "The
Greatest Sinner in Decatur" and also
by the large and ready response which
was given to his first invitation. At
the conclusion of his sermon he in-
vited those who were interested in
their souls salvation to meet him in
the inquiry room back of the plat-
form and a large number responded
readily and after listening to the evan-
gelist's clear-cut presentation of the
plan of salvation, made the surrender
of their lives to Jesus Christ. About
twenty five men responded to a simi-
lar proposition yesterday at the noon
day service at the L. and N. shops
and quite a number of the young ladies
at the knitting mills gave evidence
of their deep interest in response to
a proposition from Mr. Ramsey at
his noon day service at the mill.

The attendance at the morning ser-
vices is steadily increasing and each
day merchants and business men are
joining the ranks of those who are
voluntarily closing their places of
business to attend these services. The
Owl Drug Co. W. M. Bailey and T.
M. Dix announced yesterday that their
places of business will be closing now
during the morning services. The list
of stores closing now has run to thirty
five and others are expecting to
join this list in the immediate future.

No evangelist ever exoriated any
class of malefactors more severely than
Evangelist Ham lambasting the hypo-
critical church member and other
highly respectable disciples of the de-
vil last night. His argument was to
prove by the scripture that the man
who sinned against God is more guilty
than the one who sins against man,
also, that the man who sins against
the light is more guilty than the man
who in ignorance committed his sin.
Also, that the wealthy, educated, in-
fluential, prominent, moral, successful
man is more guilty and infinitely more
dangerous than the ignorant, poor,
immoral, drunken bums who commit
the same sins; because the first class
carry more people into error and hell
than the last class.

Who is the greatest sinner in De-
catur. Does God make any distinctions
among sinners according to their op-
portunities, endowments, education
and influence? Are some punished
more severely for the same sin than
others? These were some of the ques-
tions answered by the evangelist.
"Man's laws make a distinction be-
tween misdemeanors and felonies,"
law is concerned, between those who
Ham preached, "but they make no
distinction, so far as the letter of the
commit these crimes. But with God it
is different.

PRINCE AS MOUNTAINER

MILLON, England.—The Prince
Consort of Holland achieved the dis-
tinction recently of being the first
member of a royal family to climb
Seafell Pike, the highest point in Eng-
land, 3,210 feet above sea level. It is
said he intends to persuade King
George and the Prince of Wales to
make the journey.

QUO WARRANTO PROCEEDINGS ARE QUASHED BY THE COURT

The quo warranto proceedings, instituted by the State of Ala-
bama, Gus Bassett et al., against the board of commissioners of
the consolidated city of Decatur, were quashed by Judge Horton
in circuit court this afternoon.

The termination of the quo warranto proceedings brought
against the constitutionality of the Patterson merger bills occurred
at 3:05 o'clock when Judge Horton stated "the quo warranto
proceedings are terminated in favor of the respondents."

In a decision rendered in the case Thursday morning, Judge
Horton overruled demurrers of the plaintiffs to the defendant's
answer to the original bill, thereby upholding the validity of the
merger measures which united Albany and Decatur.

The proceedings set for this afternoon, it was declared, are
necessary in order to close the case before the circuit court. It is
stated that the supreme court probably will be called upon to re-
view the merger proceedings also.

JIM MOSS IS FREED OF MURDER CHARGE

Jury Considers Case
But Short Time
Before Verdict

JUDGE'S CHARGE
ENDED AT NOON

Cheers Greet Verdict
Of Jurymen Early
This Afternoon

Jim Moss, charged with slaying
Clayton Boggs, was found not guilty
by a jury in the circuit court this af-
ternoon. The announcement of the jury
caused a demonstration in the court-
room.

The jury remained out only a short
time. The very able charge of Judge
James E. Horton, summing up the is-
sues to be considered by the jurors,
was concluded at 12:30 today and the
sheriff was given custody of the jury.
The members of that body went imme-
diately to lunch and began consid-
eration of the case about an hour later.
The decision was reached before three
o'clock.

The trial of Jim Moss was started
in the circuit court Wednesday after-
noon and introduction of testimony
continued through Thursday the de-
fendant pleading self defense.

Arguments of attorneys, started late
in the afternoon yesterday were con-
tinued at a night session and concluded
Friday morning. Judge Horton began
delivery of his very able charge to the
jurors a short time thereafter.

Solicitor D. C. Almon opened the
presentation of the state's case. He
was followed by W. W. Callahan, who
was the only speaker for the defense.
Earle Smith, of Huntsville, of the
state's counsel, closed the prosecution.

WILLIAM KIMBALL GETS LIFE TERM

William Kimball, negro, charged
with the murder of Roy Stephenson,
negro, this afternoon entered a plea
of guilty of first degree murder and
was sentenced to life imprisonment.
The plea was entered before Judge
Horton and when arraigned the defend-
ant withdrew his former plea of not
guilty and entered a plea of guilty
to the charges.

Asked if he had any thing to say
why sentence should not be pronoun-
ced by the court, the prisoner answer-
ed in the negative and was informed
of his fate.

Luncheon Held By The Mill Employees

At the noon luncheon of the ho-
riety mill employees held at the R. R.
Y. M. C. A. at noon today, a gift
was presented to Mr. Godfrey, a re-
cent employee of the mill who is leaving the
city, by Mrs. C. W. Black, in behalf
of a company of the employees.

Today being the birthday of Mrs.
Black, following the luncheon, she pre-
sented each of the young ladies at the
luncheon with a birthday book with
the request they leave some suitable
expression in memory of the occasion.

SANITARY LAW IS TO BE ENFORCED

Dr. McRee Addresses
Commissioners At
Regular Session

CO-OPERATION OF
CITY PROMISED

Weeds Must Be cut To
Prevent Seeding And
Disease Building

The regular weekly meeting of the
city commissioners was held last
night at the city hall on Railroad street
with the three commissioners, Nelson,
Britain and Sittason present.

The first matter taken up was a
request from Dr. H. C. McRee, county
health officer.

Dr. McRee reminded the commis-
sioners that all houses within 400 feet
of a sewer, had to be constructed under
the law, and that those not within 400
feet of a sewer were required to put
in a box and can system for the dis-
posal of sewage.

Dr. McRee called attention also to
the fact that the law requires that
all property owner shall cut the weeds
on all vacant lots, in all alleys, along
the streets and on all other vacant
property within the city limits, and
asked the commission to enforce this
provision, before the rank weeds had
a chance to go to seed.

Dr. McRee stated that he would put
the sanitary office on the job at once
see about connections to the sewer
and to see that the weeds were cut, and
asked the full cooperation of the com-
mission, which was promised. Com-
missioner Nelson in reply to the
address of Dr. McRee declared that
the provision requiring the proper
connection to sewer, and other anti-
itary regulation would be enforced and
added that legal notification would be
given at once, to any who had not
met the requirements of the law in
these respects, and that after legal
notice, if the proper steps were not
taken, those not meeting the require-
ments of the sanitary ordinances
would be dealt with under the law.

Ordinance 107 is the one requiring
that connection with the sewers be
made where the house was within
400 feet of the sewer.

A refund of \$5.00 was ordered re-
funded to a Mr. Hunter, a member of
the national guard, money his brother
had paid for him as street tax.

The purchase of 500 feet of fire
house was authorized. A check was
ordered drawn to pay semi-annual in-
terest as required ordinances No. 258
and 263.

The regular reading of the min-
utes was dispensed with. The commis-
sion then adjourned to meet at the
call of the President.

Mussolini Will Surrender Ports

(By Associated Press)

PARIS, Sept. 14.—When Premier
Mussolini declares the annexation of
Fiume to Italy he will announce the
withdrawal of Italian troops from
Porto Barros, the adjoining harbor, it
is learned here from an authorita-
tive source. He will thus give up any
claim to that port to Sussak and to
the delta there, which will be left to
Jugo-Slavia.

This, it is said is the result of direct
negotiations now going on between
Premier Mussolini and the Jugo-Slav
government.

DEVIL'S GRIP NOW APPEARS IN STATE

Health Unit Receives
Warning Against
Dreaded Disease

URGED TO WATCH
OUT FOR CASES

Acute Attack Last 10
To 12 Hours—Weak
Long Time After

The county health unit is in receipt
of the following warning against the
new disease, called "devil's grip" which
is said to be spreading from Virginia
to Alabama.

The communication is as follows:

"Your attention is called to the re-
cent epidemic of 'Devil's Grip,' which
has occurred in Virginia and you are
urged to be on the lookout for cases
of this kind in Alabama. A full de-
scription of the disease under the name
of 'Epidemic Transient Diaphragmatic
Spasm' by Dr. Payne and Armstrong
will be found in the Journal of the
American Medical Association, week
of Sept. 1, 1923. Briefly the clinical
picture is as follows:

"Suddenly, or after a short prodromal
period of headache, chilliness
backache and a slight abdominal pain,
the patient is seized with severe epi-
gastric pain which radiates to one or
both sides of the lower thorax. Respi-
ration becomes difficult and rapid and
may reach 60 per minute. With each
succeeding paroxysm the pain and
respiratory difficulty decrease.

"There may be some nausea and
vomiting, constipation is the rule but
diarrhea may begin about the third
day.

"The initial abdominal symptoms
may be so alarming as to suggest the
advisability of an exploratory laparo-
tomy.

"The acute attack usually lasts only
10 to 12 hours but may be followed
by weakness and slight fever lasting
from 1 to 3 weeks.

"The disease frequently attacks
more than one member of a family.
Children are more frequently attacked
than adults. It is rarely, if ever, fatal
although there may be distressing
sequelae. The cases are confined mostly
to the rural districts."

Double Primary Bill Is Adversed

(By Associated Press.)

MONTGOMERY, Ala., Sept. 14.—
The double primary bill, abolishing
second choice votes was adversely re-
ported in the house this morning by
the committee on privileges and elec-
tions.

Lieutenant Governor McDowell
opened the senate this morning with
a short talk urging the upper house
to give prompt attention to mat-
ters concerning revenue.

RUSH OF ENTRIES INDEX TO CAMPAIGN INTEREST

Room For More Candidates, However, And
Now's The Time To Throw Your Hat In The
Ring And Get Busy — Handsome Cars Great
Attraction and Other Awards Are Worth Your
Efforts.

Everyone who is interested in the
great automobile and prize campaign
of the Decatur Daily, in which there
will be given away three brand new
automobiles and twelve merchan-
dise prizes on 17th of November to
the people who secure the most votes
in the campaign, should watch for
the next list of entrants and the num-
ber of votes each have, which will ap-
pear every Tuesday, Thursday and
Saturday.

A great many additional entries
have been received and thousands of
votes for those already entered and
who are being voted for by their
friends of the public.

If there can be any doubt left in
the minds of anyone about the popu-
larity and the public interest in this
greatest of all newspaper campaigns
they should take a glance at the list.
On this list is represented every town
covered by The Decatur Daily as well
as Decatur. Some of the nominations

Contract Of Power Co. Declared To Be Valid

NOT MADE PUBLIC

Government Required
To Sell Or Move
Gorgas Plant

FORD IS SILENT
YET ON OFFER

Judge Advocate Holds
With Daughtery On
Legal Phases

(By Associated Press)

WASHINGTON, Sept. 14.—An opin-
ion on the Gorgas plant feature of the
Muscle Shoals sale proposition has
been furnished Secretary Weeks by
the department of justice, it was learn-
ed last night, having been transmit-
ted several weeks ago before Henry
Ford's last conference, according to
officials here. At that meeting Mr.
Weeks asked the Detroit manufacturer
to modify his bid, explaining that le-
gal obstacles were in the way of in-
cluding the Gorgas plant in the prop-
erties.

Officials of the department of jus-
tice and at the war department re-
fused to divulge the character of
the opinion and declined to comment
on it in any way.

Secretary Weeks is understood to
have informed Mr. Ford at their re-
cent conference that the government
would be compelled under the contract
agreement with the Alabama Power
Company to sell the Gorgas plant,
which is located some distance from
the other properties, to the power
put as to the legal status of the
company, although there was some dis-
agreement.

After the conference last week with
Mr. Ford, Secretary Weeks stated
that the manufacturer had been told
of the "legal situation involved." The
Alabama Power Company, which owns
the land on which the power plant is
located, agreed several days ago to
extend until September 24, the time in
which the government should deter-
mine to sell its interest in the Gor-
gas unit to the power company.

The company had previously noti-
fied the government that the govern-
ment would be expected to vacate
when the agreement covering the prop-
erty expired.

The next move in the negotiations
is expected to come from Mr. Ford,
who now has under advisement the

(Continued on Page 3)

PAPER WILL FIGHT PLAN FOR CENSOR

(By Associated Press)

TULSA, Okla., Sept. 14.—The
Tulsa Tribune announced today it
would apply for an injunction to
the United States district court to
prevent Governor Walton from in-
terfering with publication of the
paper if the executive carries out
his threat to establish military
censorship over its news columns.

No censor had appeared in the
Tribune office this morning by
the time the first edition went to
press, although Adjutant General
Markham, commanding Oklahoma
national guard troops enforcing
martial law here, said one would
be placed on duty later in the day
in conformance with the Governor's
order.

The Tribune denied Governor
Walton's charges that the news-
paper had "agitated against the
state military investigation of
marked activities in Tulsa coun-
ty."

OVERALL FACTORY IS PLANNED HERE

A called meeting of the directors
of the chamber of commerce was held
in the offices of the chamber in the
Colonial building last night for the
purpose of discussing proposals for
the erection of an overall manufac-
turing plant here.

The meeting lasted about two hours
and was attended by some business
men in addition to the directors.

Following an enthusiastic discussion
of the plans presented for the propo-
new industry, the directors adjourn-
ed, with the understanding the matter
would be heard further at the regu-
lar meeting of the board of directors
to be held Tuesday evening.

It was proposed that a stock com-
pany be formed of local men and any
others who might care to take stock
in an overall factory at this place.
The concern was expected to start out
with a capital of \$65,000, with the
right to increase the stock later.

The speakers pointed out that the
central location of Decatur as regards
Chattanooga, Birmingham, Nashville
and Memphis, made this place an ideal
location for an overall factory, es-
pecially since no factories for the mak-
ing of overalls exist anywhere near
Decatur.

The increasing demand for such out-
ter clothing as overalls was spoken
of, and it was shown that their use
was not confined to any one class now
as was the case many year ago.

PETER CARSTENSEN IS SHOT IN TEMPLE

Peter Carstensen, prominent for
many years in local cotton circles,
was shot in the left temple at his
boarding place on Fourth avenue at
noon today, resulting in his death a
few hours later, the opinion being that
it was an accident.

Mr. Carstensen, who was about 26
years of age, had been identified with
local cotton interests for many years.
About ten years ago he entered the
employ of the local compress and for
several seasons more recently was
with the J. L. Robinson and company.
This year he was to have returned
to the compress.

Mr. Carstensen has a host of friends
here, being very popular not only
with his associates, but with all per-
sons with whom he came in contact.

RIVERA ASKED TO FORM A MINISTRY

Captain General Will
Take Over Direction
Of Government

KING DECLINES
TO PUNISH HIM

Spanish Ruler Throws
His Influence With
Revolutionists

(By Associated Press)

MADRID, Sept. 14.—King Alfonso
this afternoon asked Captain General
Primo Rivera, leader of the military
movement against the Alcala cabinet
to form a government.

MADRID, Sept. 14.—The
cabinet resigned this morning. It is
understood that the Premier com-
mended the King to grant the
military movement facilities for punishment
of military revolters in the provinces
elsewhere. The King, however, com-
mended the Premier to the military
movement.

The newspaper also reports that
stands that Primo Rivera, leader of
the military movement against the
government, will preside over a di-
rectorate composed of civilian of-
ficials who will assume charge of the
ministry.

Ministries of justice, interior, war,
and navy are to be independent of politics
and sought to form a cabinet to manage
the directorate.

The king says the present government
to govern without parliament which
will be dissolved.

New elections will not be held as
long as the present political conditions
prevail.

SENATE VOTES AID FOR MOBILE PORT

(By Associated Press)

MONTGOMERY, Ala., Sept. 14.—By a
vote of 26 to 7 the senate of the Ala-
bama legislature yesterday afternoon
passed the Brooks' substitute bill,
which provides \$5,000,000 for the de-
velopment of Mobile port with an
equal sum for later use should the de-
velopment net a substantial dividend.

Following the port action the senate
again met last night and by a vote of
21 to 6 passed the Powell bill, provid-
ing for redemption for new cotton
mills erected in Alabama for a period
of three years from all state, county
and municipal taxes.

During the afternoon in the lower
house six educational measures passed.
The bills carrying appropriations for
various departments of the state
educational system.

Under the provisions of one of the
bills, introduced by Representative
Wilkins of Selma, \$112,760 is made
available October 1, 1923, for the
promotion of vocational education in
agriculture, trade and industries.

Another bill will allow the county
high schools to impose an assessment
of \$2.50 as a matriculation fee. A
third provides \$3,333 for each county
for repairing rural school buildings
and another appropriates \$17,500 for
the upkeep of the state department of
education per annum.

The night session in the house was
featured by the defeat of the Long
bill providing an appeal from decisions
of the Alabama public service com-
mission with regard to the issuance
of certificates of necessity and con-
venience to public utility companies.

Another bill of Representative Wil-
kins appropriating \$55,000 for carry-
ing on health work in Alabama, passed
in the night session by a 54 to 19
vote.

DAILY WANT COLUMN

SURE IT DOES GOOD

Theodore's Black-Draught Liver

Medicine (Vegetable) Praised

by the Head of a

Louisiana Family.

Lake Charles, La.—"I don't know what we would have done had we not had Black-Draught. It sure is one of the best medicines made, and am sure the best liver medicine," said Mr. Henry Garrett, of this city.

"My whole family uses it," continued Mr. Garrett. "My wife says she believes she kept off the 'flu' by taking doses of Black-Draught regularly."

"I, myself, use Black-Draught for indigestion, and it is fine."

"We used pills and tablets and other laxatives, but they never seemed to do us good, but the Black-Draught sure has, and it has come to our house to stay. We give it to our daughter for headache and torpid liver."

"I am glad to recommend anything that has been the help to my family that Black-Draught has."

"My present health is good. Have two boxes of Black-Draught in the house now."

If your liver gets out of fix, take Black-Draught. It will help to drive the bile poisons and other unhealthful matters out of your system.

Sold everywhere. NC-148

Jobs are scarce
for the
**Physically
Run-Down**

THE DOOR of opportunity flings wide its portals only to the man who is up and doing—who is filled with pep and punch—with rich, red blood tingling through his veins. Mountain size obstacles dwindle to ant hills and ambitions become accomplishments to these sort of men.

Where is the employer who seeks the man who is physically run-down?—The man without stamina to withstand the knocks and gaff of the hurrying, scurrying world of business?

S. S. S. is the long established and time honored creator of red blood cells. You cannot expect to get very far up the ladder unless you are equipped with a body that is strong and vigorous. S. S. S. will start you on your way. Don't allow the "Door of Opportunity" to be closed to you because you have not the stamina to withstand the gaff—because your nerve power is lacking. Build up your system!

S. S. S. made of carefully selected and scientifically prepared and proportioned herbs and barks makes you fit! Get back that old time punch! When opportunity knocks be ready to answer—the call!

S. S. S. is sold at all leading drug stores. It is more economical to buy a large size bottle.

S.S.S. Makes You Feel

Like Yourself Again

Russian Peasants Find Substitutes

MOSCOW—Love of ceremony is too human a trait to permit of its abandonment even in Russia in the three principal events of family life, birth, marriage and death. Certain Communist "rites" are therefore finding their way into the family lives of Russian peasants and workmen as a substitute for church ceremonies.

The conclusion are brought out in an article by Leon Trotsky, the Russian war commissar. In some cases they contradict the previous ruling theory among Communists in Russia that, as Trotsky puts it, "the workers' state had disclaimed church ceremony, having announced to its citizens that they had the right to be born, marry and die without any ceremony whatsoever."

"The life of a laboring family is too monotonous for this, and the monotony reacts upon the nervous system" Trotsky writes. "Therefore there is a craving for the church and its ceremonies. The workers' state already has its holidays and processions, its sights and parades, its new symbolical pleasures, and the new state theater."

Instead of naming their children after some saint, many workmen now are choosing names indicative of revolutionary ideas, or after personages, and "Ninel," which is Lenin's

name spelled backward, are two of the new names for girl babies. In place of christenings there are now "half joking inspections" of new born babies by factory committees, and special protocols are drawn up including the new comer among the free citizens of the Soviet Republic. The entrance of a pupil into school is also marked by a special holiday in the workers' family, with the participation of trade unions and guilds.

So far as marriages are concerned, Trotsky says "life does not want to content itself with the mere marriage theatrically adorned."

Cremation is the proper system of disposal of the dead, but there must be ceremonies, for "the requirement for outer appearances of feeling is both mighty and lawful."

Trotsky advocates the development of moving pictures as an antidote for both the church and the saloon.

SOCIALISTS OF YUCATAN MAY NOMINATE CALLES

MERIDA, Yucatan—Yucatan Socialists are planning to place a candidate in the field at the 1924 presidential elections. Leading elements of the socialist Party of the Southeast under the leadership of the party's president, Felipe Carrillo Puerto, governor of the state, have issued a call for a nominating convention to be held here early in September, which delegates representing socialist organiza-

tions in Yucatan, Campeche, Tabasco and Chiapas will attend.

Governor Carrillo Puerto recently visited General P. Elias Calles, secretary of government in the Obregon cabinet and probable presidential candidate inviting him to attend the convention. General Calles has been convalescing at Soledad de la Mota, a ranch in Tamaulipas belonging to his sessions of the pre-recognition conference.

THINGS FOR DAD AND LAD.

LOCAL MAN HURT IN AN AUTO ACCIDENT

One man was hurt in an auto accident which occurred near Woodville, up the Southern railroad from here, between one and two o'clock Thursday morning. Bruised painfully but not dangerously was William R. Norton, well known local boy, and an employee of the Standard Oil Company here. Mr. Norton was seen at a local physician's office this morning, his hand being bandaged heavily and his

left hand also had been wrapped by the careful hand of the doctor. Mr. Norton said that he and William Davis, a fellow employee of the Standard Oil Company, were riding along in their Ford, near Woodville, when the radius rod of the machine gave way, making it impossible for him to guide it, with the result that the Ford took to the ditch, throwing its occupants violently to the ground. Mr. Davis was unhurt. A "Horse shoe" gash was cut on the forehead of Mr. Norton and the knuckle of his left fore finger was severely mashed. The car is now at Woodville awaiting a new top, a new wind shield and other repairs. The local boys came home on Southern train No. 335 Wednesday.

But Not So Easy to Take.
An ounce of honest criticism is worth more than a pound of flattery.

Text Of Opinion Not Made Public

(Continued from page one.)

"legal situation" obstacles explained to him by Mr. Weeks.

(Associated Press.)

WASHINGTON, Sept. 14.—The contract between the government and the Alabama Power company, requiring the government to either sell the Gorgas steam plant or remove it from the property of the company, has been pronounced valid by the Judge Advocate General of the army as well as by Attorney General Daugherty.

Small Consolation.

It doesn't do you much good to hold the key to the situation after some other fellow has picked the lock.—Exchange.

Rush Of Entries Index To Campaign Interest

(Continued From Page 1)

one of the prizes offered. There can be no special influence of any kind on behalf of any kind on behalf of any one, nor can any money be spent by anyone in winning a prize. The prizes will be awarded in the amount of votes secured and to secure votes you must either clip them from each issue of The Decatur Daily or secure paid subscriptions to The Decatur Daily.

Votes are issued on all subscription payments from six months on to five years. You can secure subscriptions anywhere. Just be sure that you get the address right so there will be no confusion in getting the paper delivered.

Votes issued on all subscriptions turned in to the campaign department. The campaign manager issues a reserve vote coupon for each subscription and returns this vote coupon to the candidates. After you receive this reserve vote coupon it is good for its face value as filled out in ink at any time during the campaign, and does not appear to your credit on the published list until you return it to the campaign manager and have it cancelled and published.

In this manner all candidates hold their own reserve votes and these votes can be held until the very last day of the campaign if so desired. This insures everyone complete control of his own votes at all times, which is one of the most commendable features of the campaign. One of the most popular features of the campaign offered is the 10 per cent cash commission which is to be paid to the non-winners at the close of the campaign who have complied with the rules of the campaign. This insures everyone who takes part of securing some prize or reward for his or her time.

So you have nothing whatever to lose on this campaign, and everything to gain. If you are not on the list of entrants, send in your name. If you are in start your campaign at once.

Send in your name at once to the Campaign Manager, P. O. Box 572, and get your name on the list to be published Saturday evening. Everything is furnished to you free of charge.

BUSINESS SLUMPS IN JAPAN AS STRIKES HALT INDUSTRY
TOKIO—Each month since January has shown an increasing business depression in Japan, although early in the year it seemed business was improving. As a result there has been a marked increase in unemployment and labor troubles.

During June approximately 25,000 men were involved in strikes. These strikes were due in large measure to the discharge of workmen by the larger factories, the men retained striking as a protest against the discharge allowances given their fellow workmen whose services had been dispensed with.

WE FAVOR ACCEPTANCE OF HENRY FORD'S BID FOR MUSCLE SHOALS.

The Italian put the fat in the fire for Greece
and now he has turned on Jugo-Slavia.

Many would be more truthful than they are
they did not have so much assistance.

Mr. Bryan's heart will return to the grave when
he finishes fighting Mr. Underwood's candidacy.

Henry Ford's ambition to banish all poverty
will never be realized if the old line Republicans
can help it.

In the meantime anti-prohibitionists are re-
minded that William H. Anderson has not been
deprived of his liberty.

Time and money are said By Franklin to be syn-
onymous, but it is a mighty hard matter to ex-
change time for money.

Grover Bergdoll says the way he has been
treated has kept him from returning to America.
Fine.

If President Coolidge had said as many things
against his boom for Presidency as Henry Ford
has against his for the same place, it is a cinch
Calvin would leave the White House March 4,
1925.

KANSAS CITY STAR PAYS GRACEFUL TRIBUTE TO SENATOR UNDERWOOD.

While doubting the ability of Senator Oscar W.
Underwood to carry the Democratic national con-
vention by the necessary two-thirds majority to
become the standard bearer of the party for
President, the Kansas City Star pays a graceful
tribute to the ability of Mr. Underwood as a
statesman. The Star names Senator Underwood
as "one of the outstanding Democrats" of the na-
tion, with the intimation that he is too prominent
to be nominated for the Presidency.

What the Star has to say concerning Mr. Under-
wood is as follows:

"From the governor of Alabama and the
four living governors the Star has received a
statement commending Senator Underwood
of that state for the Democratic nomination
for President. They point out that Senator
Underwood has been in public service almost
30 years; that he has shown great ability,
courage, sincerity and unselfishness.

"The Star is a novice in politics and knows
little about such matters as Presidential nomi-
nations. But it quite agrees that the enthu-
siasm of Gov. Brandon and his associates is
borne out by the record.

"The country especially remembers the na-
tional service of the Alabama senator in lead-
ing the fight for the tariff law enacted in
the Wilson administration, and in contribut-
ing toward the adoption of the treaties result-
ing from the Washington conference under
President Harding, when politics might have
made him a disturber.

"His record has made him one of the out-
standing Democrats of the country—perhaps
too outstanding to get the necessary two-
thirds majority in a national Democratic con-
vention."

Whether or not Senator Underwood gets the
Democratic nomination for President remains to
be seen, but it is significant that the press is re-
ceiving his candidacy kindly, and nothing but good
words are being said in the newspapers concern-
ing the senior senator from Alabama.

If Mr. Underwood encounters no more opposi-
tion in the Democratic convention than he is meet-
ing with at the hands of the editors he may be
counted upon to get the necessary two-thirds

FORD WILL FIGHT ON; BIG HAPPENINGS AHEAD.

Under the caption "Ford will fight on" a reli-
able Washington correspondent had the following
to say under a Washington date line of Septem-
ber 11:

"Ford's friends here are emphatically de-
nying the report emanating from government
sources that he will ultimately modify his
proposal respecting Muscle Shoals. One of
those who conducted the Ford end of the ne-
gotiations for Muscle Shoals before congress
last year is authority for the statement that
the Detroit car builder intends to make his
fight for Muscle Shoals before the approach-
ing session of congress on his original pro-
posal.

"When he was asked last Winter to modify
that proposal he then stated he was ready to
modify it in any respect in which it conflicted
with the legal rights of the United States
government but his agents here say he has
never admitted the rights of the government
in the Gorgas plant were illegal. They say
he is prepared to contest every right of the
government to this plant which he believes is
indispensable to the success of Muscle Shoals.
His friends charge that the real motive be-
hind the recent summoning of Ford for a con-
ference for the purpose of inducing him to
change his Muscle Shoals proposal was to
serve the interests of the fertilizer trust, the
Alabama Power Company, and other big in-
terests. The real legal status of the Gorgas
plant is pronounced bunk. Before he ever
submitted his proposal his attorneys had
looked into every angle of the business."

The correspondent does not go on to say how
Mr. Ford will carry his fight. But if the sugges-
tions in the quotation made are the right ones, it
would seem that it will be necessary for Mr. Ford
to disrupt the whole Republican party if he is to
secure Muscle Shoals. At least the Detroit man
will have to silence the advisors to whom Presi-
dent Coolidge now seems to be lending a listening
ear. "Great promulgations" in other words, are
about to take place at Washington and elsewhere
in connection with the Ford bid for Muscle Shoals.

MUSSOLINI PUTS HIS PEOPLE TO AN OPEN SHAME.

Reports from Director Lowe of the Near East
orphanage on the island of Corfu are to the effect
that the Italian attack was not only without ex-
cuse but a very poorly managed affair.

The orphanage, under the direction of Col Lowe,
has many poor children in it who were disabled
by the gun fire from Italian vessels, because the
gunners were too ignorant to properly direct their
fire. It is said in an attempt to fire upon an old
fort some distance from the sea those in charge of
the Italian guns missed their mark by about a
hundred feet and shot into a company of unsus-
pecting children who were playing on the beach.

Certainly the children had done no wrong. If
the Italian had to make war, it looks like he should
have had sense enough to make his fight against
the military establishments on the island of Corfu.

Another instance of bad marksmanship on the
part of the Italians was when they missed their
objective and fired into noncombatants.

It will not be easy for the better element of the
world to excuse the Italian attack on Corfu under
any circumstances, but for the whole affair to
have been so ignominiously managed appears disgust-
ing in the extreme.

Should it ever appear that the Italians were fol-
lowing precedent in firing on Corfu, or should es-
tablish any kind of a legal position for their act,
no excuse can ever be found for the murderous at-
tack on children who were playing on the beach
and other innocent noncombatants.

Had the Italian awaited the time for the expira-
tion of his ultimatum even, opportunity might
have been given for all the civil population of
Corfu to have sought shelter, before the battle-
ships opened fire.

The victory, if it can be called such by the great-
est stretch of the imagination, gained at Corfu,
was a sorry one for it was over children and help-
less grown people. In future years the "glory"
of this victory will more and more be an open
shame as time passes.

Whatever the cause of occasion of the action of
Mussolini at Corfu, he has put the Italian navy
and the Italian people to an open shame. He will
never be able to get out of that class properly
termed assassins, despite his noble looking fore-
head, as his printed pictures display it, and de-
spite the fact that the ignorant people of Italy
have hailed their foolish ruler as a second "Napol-
eon" and a great man.

Chain Stores Have Created American Business Romance

(By Associated Press)

NEW YORK—One of the greatest romances in American retail business has been the growth of chain grocery stores, 20,000 of which transfer slightly less than 10 per cent of the nation's retail grocery business, estimated at \$20,000,000,000 annually. If the present ratio of growth is maintained this will be increased to 25 per cent within the next five years.

Economy of operation by reason of the fact that the business is transacted on a cash basis with a heavy turn-over and small profits, and the rapid development of American suburban and community life, have been the two main factors responsible for this tremendous growth. Scientific investigation has revealed that a community of 1,000 persons will permit the operation of a chain store grocery at satisfactory profits, through one store can serve several times that number.

The first chain grocery stores in the country were viewed with suspicion on the theory that the lower prices they charged meant inferior products. This feeling, however, has to a large extent disappeared, mainly due to the fact that the chain stores have offered nationally advertised articles at prices below those charged by independent grocers.

The pioneer in the chain store field was the Great Atlantic & Pacific Tea Company, which was established in 1859. This concern now has more than 8,000 stores doing an annual business of approximately \$250,000,000. Unlike a number of other chain store concerns, the ownership and control of this organization has remained in the hands of the family.

The second largest chain grocery firm is the Jones Bros. Tea Company, which started with one store in Scranton, Pa., in 1872, and now has 500 stores in 200 cities doing an annual business of approximately \$40,000,000.

The Jewel Tea Company has 527 branches from which 21,864 wagon and motor truck routes operate in 43 states. Scattered throughout the country also are more than 300 Piggly-Wiggly stores, although they are not all owned by the same corporation.

Perhaps the greatest chain store concern in the country outside the grocery field is the F. W. Woolworth Co., which started with one store in Lancaster, Pa., in 1879 and now operates more than 1,200 stores doing an annual gross business of over \$187,000,000. The United Cigar Stores have approximately 2,450 stores.

Other large chain store concerns are the J. C. Penney Co., operating 382 department stores doing an annual business of more than \$50,000,000, the S. S. Kresge Company with 212 stores and annual gross business in excess of \$65,000,000; Schulte Retail Store Corporation with 239 stores in 1922 doing an annual business of nearly \$25,000,000; the United Drug Company with more than 250 stores, the G. R. Kinney Company operating 131 shoe stores, the McCrory Stores Corporation with 165 stores, the S. A. Kreh Co., with 150 stores and the Melville Shoe Corporation with 62 stores.

Decision Is Made On Assessment

The Morgan County board of revenue, after having the matter of a readjustment of the valuation of certain properties in this county owned by J. E. Penny, now of Birmingham, and formerly a prominent business man here today placed the valuation at \$64,699.

The original valuation placed on the property by the county tax adjuster was \$67,993. An estimate made recently by attorneys and business associates of Mr. Penny, placed the valuation of the property at \$33,983.

The property in question consisted of farm lands, city lots and a number of residences.

The decision of the county board of revenue comes at the close of a number of conferences held between the board Mr. Penny himself and his legal representatives.

Mr. Penny was here early in the week and appeared before the board of revenue, but was called home on account of illness in his family on Tuesday.

Russian Author Finds Refuge In Barren Crimea

(By Associated Press)

SIMFEROPOL, Crimea.—In a little hut high up in the mountains some 50 miles from Simferopol, S. Sergeyeff Zensky, one of Russia's most widely known authors, is today living the life of a hermit.

To an Associated Press correspondent Zensky related recently the difficulties of being a hermit during a revolution, and spoke of his adventures during the numerous changes of regimes and the famine year in the Crimea.

"The famine here was very acute," he said. "The land had been devastated by civil war and numerous visitations. It completed the ruin and carried away a large portion of the population which was already depleted by the upheaval and by terror."

"I lived here quite happily from 1913 until the beginning of 1918. Then the Germans raided my little farm, and later the Bolsheviks. I had to take refuge in town, where I lived in hiding for a couple of months until I was able to secure from the authorities a 'guarantee of safety' paper. My live stock and cattle, which were confiscated during the period of my absence, were given back to me on my return, but they were unfit for work. Other changes of regimes, coupled with innumerable Tartar risings, have each had their interests, and now the result is quite evident."

Pointing to a pile of timber and short beams in a corner of the room, Zensky said, "That, together with this little hut and one cow, is all that remains of my farm, all I have to leave to my family."

"Please tell the American people," continued Zensky, "that the Crimean population greatly admires the disinterested and self-sacrificing work of the American Relief Administration, a humanitarian feeling of the American people. We are indeed grateful."

S. Sergeyeff Zensky is one of the few Russian writers who stayed in Russia all through the years of revolution and civil war. He lives today the hard life of a poor man, and is cut off from the world of culture. He writes a great deal, and has just completed a romance entitled "Transfiguration," which deals with the development of Russia.

BUSINESS MEN FOR CHURCHES

NEW YORK—Installation of business methods in the Episcopal churches of America is the aim of Lewis B. Franklin, Vice President of the Episcopal National Council. Mr. Franklin, a prominent New York banker, believes there is no incompatibility between modern business and religion, and he has issued a call for 4,000 volunteers to serve as church business managers.

"Business needs more Christianity, and Christianity needs more business," Mr. Franklin explained. "Good management and effective organization in church affairs are the results sought for."

NOTED GERMANS IN MEXICO FOR STUDY OF SOLAR ECLIPSE

MEXICO CITY—A party of German scientists, headed by Prof. H. Ludendorff, director of the Potsdam Observatory and brother of the field marshal, were the first of the foreign savants to arrive in Mexico to observe the solar eclipse on Sept. 10. After being welcomed by representatives of the government and inspecting the national observatory at Tacu-

bay, the party left for Yerbania, Durango, where the installed their instruments.

In the party was Prof. R. Schorr, director of the Hamburg Observatory, who, at the outbreak of the world war, was with Prof. Ludendorff in the Crimea on the same mission that finds them in Mexico. They were forced to abandon all their instruments, according to Schorr, and flee to Germany to avoid internment. Several months ago the professors travelled to Odesa and managed to retrieve the outfit.

GO-TO-SCHOOL SHOES

For Boys

We have added to our Big Line of Men's Shoes, Shoes for Boys we have them in dress and army style, black and tan.

These shoes are made for long wear.

Bring your boy in, let us fit him with a

If you haven't "money to burn," don't waste coal!

If you heat your home this coming fall and winter with an under-draft stove, you WILL waste coal. Because with an under-draft stove about 60 per cent of the possible heat value of the fuel goes up the chimney in the form of smoke and gases. Government experiments have proved this.

Cole's Hot Blast Heaters stop this waste by burning the fuel gases and smoke. And by so doing they save one-third to one-half in fuel.

Cole's Original Hot Blast Heaters

Yes, this wonderful stove will give you warmth and comfort all winter on one-third to one-half less coal than you burned last winter. This saving has been proved in thousands of homes.

Stop in this week and let us show you how Cole's Hot Blast mixes superheated air with the gases and smoke and consumes them completely, thus giving double heat value out of your fuel. We are giving special demonstrations and displays this week. You'll find them interesting.

We'll show you why Cole's Hot Blast Heater makes a cleaner home. You pour the coal in at the top of the stove, just as you pour water into a tumbler. No coal spilled on the carpet, as it always is when you have to throw the coal into a door. And you can take the ashes out without spilling a particle.

Holds Fire Saturday Night to Monday Morning. You can sleep later every morning because you don't have to build a fire. That is another proof of its fuel economy.

This saving of one-third to one-half in fuel is guaranteed, no matter what fuel you burn—hard coal, soft coal, coke or wood.

You'll be surprised to learn at what moderate cost you can have one of these splendid stoves installed in your home all ready for fall. Come in and let us figure with you.

Nature photographers know birds are easiest to approach and photograph at their nests, and so it is with wasps, says Nature Magazine. In addition they are not unlike birds in that they may be attracted by putting up proper houses for them.

Mr. and Mrs. Q. Q. McDonald were the guests of friends here today en route to their home in Mobile, after visiting relatives in Huntsville for the past two months.

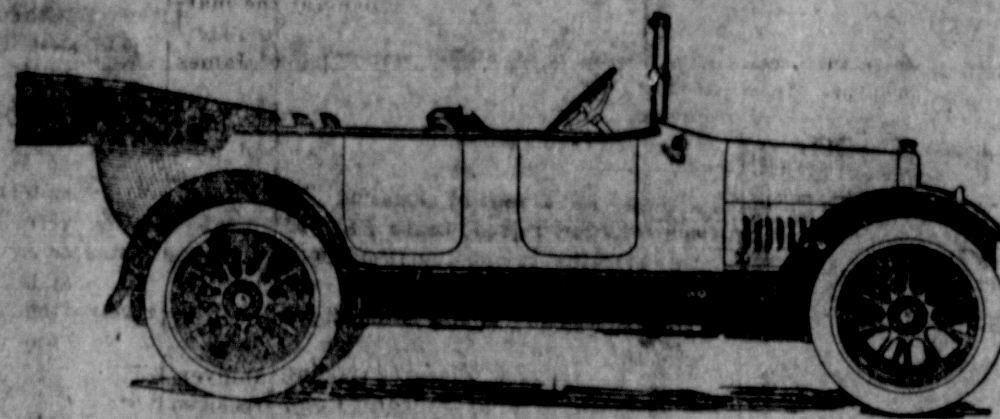

After the presentation of the prize to Miss Julia Lee Lynn a candle stick salad was enjoyed.

Fear Of Disaster Grips Germany

MUNICH.—Germany's internal political situation is much affected by the hundreds of thousands of Russians who have either fled to Germany for safety or have come here voluntarily. Communist leaders throughout Germany frequently are Russians, and the opinion is prevalent that Russian agitators are much more numerous than they really are. Their tactics are similar to those followed in Russia.

They are using the same lavish display of placards and printing, the same sort of inflammatory articles in the communist journals that were prevalent in Russia before the red terror spread over that land.

White Russians, that is, non-communistic Russians, are much alarmed by the communist propaganda and excite all the Germans they know by telling them that communism did to Russia.

There is such nervousness now in Munich, Leipzig, Dresden, Berlin, Breslau, Hamburg and other cities having large working populations that the explosion of an automobile tire or an unusually loud motor exhaust is mistaken for gunfire and pedestrians are to take shelter.

The communists have talked so much, and the financial situation and food shortage in great centers are so acute, that the re-enactment of Russia's tragedy is greatly feared.

"Anti-fascism" is the name under which the communistic agitation is moving at present. Placards urging the workmen to join the "anti-fascists" and check the "industrialists and capitalists who are starving workmen and their families" are widely posted throughout German cities.

While there non-Bolshevik Russians in Germany probably outnumber the Bolshevistic Russians many times, and although few of the bourgeois Russians are engaged in political activities in Germany, they contribute much to the uneasiness in the great cities. Most of them suffered great hardships in Russia and through their newspapers and personal associations they intensify the fear of bolshevism.

Throughout Germany the air is now constantly filled with rumors of impending disaster. One day there are reports that pogroms may be expected from forces on the right. The next day demonstrations from the left are predicted widely by the nervous press, and given wide circulation by an uneasy public.

The Ruhr situation is overshadowed in the larger cities of Central and Eastern Germany by local troubles and expected troubles. Causes of the general upset of affairs in Germany are ignored by the average man, and especially by the average woman. To him, the potato shortage and the lack of fats are the all-important subjects of the hour.

ONE-FIFTH OF PRESBYTERIAN CHURCHES HAVE NO RECTORS

ST. LOUIS—More than one-fifth of the 924 United Presbyterian churches in the United States are without rectors, according to statistics compiled by the Xenia Theological Seminary here.

While there 948 ministers of the denomination in this country, 191 churches are without rectors because of the large number of clergymen needed for school and home mission activities, and work of the denomination's boards and agencies, it was explained.

OFFICE CAT

Copyright 1921, by Edgar Allan Moss.

Typewriters, run down more people than automobiles do.

As Shakespeare, the great philosopher, once said "You can string beans and kid gloves, but you can't bull frogs."

The only time a woman is economical in the matter of clothes, is when she buys a bathing suit.

Her act was shocking, so they put her on a short circuit but she got lit up and was put out.

Generally there is just about as much junk in a boy's pocket as there is in his mother's library table drawer.

It isn't prohibition that encourages the drug habit but the profit made by peddlers.

One kind of woman can make the worry and war of married life seem a pleasure to a man. And the other kind of woman can make matrimony seem a good investment to a man.

The woman who refers to a neighbor woman as an "old hen" would get awfully mad if someone referred to her own as a chicken.

It's fair enough. The majority furnishes most of the bull, and the minority does most of the beefing.

"A chain is no stronger than its weakest link," said the pessimist. "Yes, you are troubled with headaches a great deal, aren't you?" questioned the optimist, pessimistically.

The female critic of the modern bathing suits is not a perfect thirty six.

THE FAMILY DINES OUT
When we go out to some cafe, Maw raises up an awful holler, When paw forks biscuits like a jay, And stuffs the napkin in his collar. But paw's got sense, and knows his stuff. He's got more gumption than his wife.

He knows that lettuce hearts are tough And can be conquered with a knife. My paw may never really learn, Quite all the rules of etiquette. He eats his way, and maw eats her'n. But he enjoys his more, I bet.

"Is he polite? Why, he knocks before he goes in his own room."

The coward has his wife telephone the office he is sick, the brave man tells his boss he is going fishing.

NEW CITIZENS REVERE MEMORY OF LINCOLN

SPRINGFIELD, ILL.—Of the thousands of pilgrims who annually visit the tomb of Abraham Lincoln, the most enthusiastic and most welcome, according to H. W. Fay, custodian are the immigrants who are just about to become American citizens.

Crowned heads, ambassadors, famous generals, prime ministers and presidents come by the score to lay wreaths on the sarcophagus of the martyred president. And men and women from more humble walks of life come too.

"Many times a year the foreign born coal miner comes to Springfield from neighboring towns to take out his first citizenship papers," said Mr. Fay "and he is the most reverent visitor of all. I like to tell men like that about the martyred president."

Old Resident Given Up By Physicians

"Given up by five doctors, my only hope on operation, I rebelled on cutting me open, as I am 75 years old. A neighbor advised trying Mayr's Wonderful remedy for stomach trouble. I got relief right away. I had not eaten for 10 days and was as yellow as a gold piece. I could have lived only a few days but for this medicine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. By druggists everywhere. Adv.

WATERCRESS RICH IN FOOD. VALUR. SPECIALIST ASSERTS

FORTSMOUTH, Eng.—Watercress as a side dish for lunch is well known in most households, but few people eating it were aware that it contained all the essential vitamins, until this fact was stated by Dr. Harold Scourfield at a Medical Association meeting recently. He advocated a more extensive use of the vegetable and said that the Greeks regarded it as food for the mind, while today it was regarded as a stimulant for the body.

This recalls a favorite experiment of Professor Vivian B. Lewis, explosive expert. When lecturing he used to fill a glass jar with watercress, take it to Greenwich hospital and leave it on the roof in the sun's rays. The next week it would be brought back to the lecture room, the cover removed, and a light placed near the opening with the result that a deafening explosion occurred. This proved, according to the professor, that watercress was composed of pure oxygen and therefore very beneficial to the human system.
